- M.A. in German linguistic
- German native speaker
- Teaching German to non-native speakers at THI
- Passionate about teaching in a fun and motivational environment

04

Game specifications

Game specifications

Seated operation,
navigation/beaming via
controller

Goal is to correctly sort in
as many bubbles as
possible

When selecting a ball an
audio of the word is played

3 modi:
cooperation, competition,
single player
Multiple types e.g. articles,
word types etc.

2 submodes:
exam (time limit of 90-120
seconds, yes/no-feedback),
training mode (no time limit,
second try for wrong sorted
items, right solution, hints)

Words are taken from already
known vocabulary according
to teacher or course level,
types can be unlocked
according to progress

MVP focus: one type & submode, native english, up to four players
